

# Katherine Kim

## Technical Writer

Organized and accomplished technical writer with experience in writing and editing user-end and internal engineering technical documents, including user guides, design specifications, and correlation/compliance reports. Quick to learn new authoring programs and content management systems. Social collaborator to gather technical information from subject matter experts (SMEs) to write concise and accurate documentation.

## EDUCATION

### B.A. Professional, Technical, Business, and Scientific Writing San José State University

2017 - 2019

## ACHIEVEMENTS

#### Marvell: Received Execution Excellence Award (03/2023 - Present)

*Received recognition for producing quality deliverables to customer commitments as scheduled by program management.*

#### Synopsys: Joined Man Page Editing Initiative (03/2021 - 07/2021)

*Volunteered to take on additional responsibilities to review man pages. Edit syntax for technical clarity and grammar, while adhering to the publication style guide.*

#### Synopsys: Published eLearning Module (07/2020 - 09/2020)

*Created an eLearning module published for customers to learn about the supported product. Compiled marketing information and SME input to produce an introduction course. Used Articulate Storyline to design the UX and audio input.*

#### Synopsys: Participated in DITA Testing (09/2019 - 09/2019)

*Learned DITA in oXygen XML Editor in 3 weeks. Converted 7 user guides from Adobe FrameMaker to oXygen XML Editor by hard deadline.*
